Water in the Brain

The history of hydrocephalus and its treatment; the challenges in the past and present.

Bio:

Dr. Rein Anton graduated summa cum laude from Tartu University in Estonia in 1977 with an MD. He completed his residency in neurosurgery in 1983 and his PhD in biochemistry in 1984 and became board-certified in 1983. He has served as a postdoctoral researcher in Uppsala, Sweden (1987-1988 and 1990); head of the Oncogenesis Laboratory performing research in molecular biology, cell biology and cancer biology (1988-1991); a researcher at the UCLA Department of Neurology genetically engineering cells for Parkinson's disease treatment and studying programmed cell death (1991-1994); a neurosurgery resident at UCLA and Loma Linda University (1994-1999); and an assistant professor in the University of Arizona Department of Surgery Division of Neurosurgery (2003-2004 and 2007-present). For the last two and a half years, he has also served as a neurosurgeon in the Veterans Administration in Tucson, Arizona. He is a fellow of the American College of Surgeons and the American Association of Neurosurgeons.
